P. O. Box 382, Denver, Colorado

Gardens located at West Thirty-eighth and Wadsworth Avenues,
one and one-half miles west of the city limits.

TO MY THOUSANDS OF PATRONS, GREETING:

With the dawn of the year 1935, I pass my forty-ninth year as a commercial grower of Dahlias, and five earlier years were passed as an amateur grower. So far as known I am by far the oldest specialist in Dahlia culture in this country; and issued the first exclusive Dahlia catalogue in the United States. These many years of practical experience among the Dahlias place me in position to pass intelligently upon the Dahlia, its habits, needs and qualities.

PRICES: I do not claim that my prices are the lowest; nor have I coveted the reputation of running a "cheap place." Nevertheless, my prices will be found quite reasonable and even lower than others. **REMEMBER, ALSO, THAT I SEND OUT STRONG TUBERS, NOT WEAKLY GREEN PLANTS.** Special attention of patrons is called to the list of Hardy Herbaceous Plants and Shrubs in the back pages. They thrive almost anywhere that a weed would grow, requiring only reasonable care to get them well established.

How to Order Dahlias

It would be well for each purchaser, when making out an order, to name several varieties as a second choice, for the reason that some of the varieties may be out of stock when the order reaches me; or if not familiar with varieties, I will gladly make selections for you if you will mention the colors and forms wanted. Long experience places each variety before me as an open book. No orders filled for less than one dollar.

Why Not Send a Present?

The national slogan of the Florists' Association appeals to not only the human heart, but the reason as well: "Say It With Flowers."

Flowers are the pure gold of the human thought, requiring neither scholarship or great intelligence in the interpretation.

From the earliest history of the race they have had a place reserved in the human heart, speaking its best emotions. No more enduring or appropriate expression of friendship could possibly be made than a present of a shrub, plant, or collection of choice dahlias or gladioli, reminding one daily of a friendship, affection, or association of a pleasant past or present.

Many of the items or made up collections among these pages are just suited to this purpose and may be sent at moderate cost. Page 9.

TERMS OF BUSINESS

First—The cash must accompany the order.

Second—Remittances may be sent in any way most convenient to the purchaser.

Third—Prices quoted include postage or express charges to all railway points in the United States when purchased at retail, except where noted.

Fourth—Non-Warranty: I guarantee the safe arrival of goods by mail or express and will continue to use the same careful, painstaking methods in filling orders with stock of known vitality and of superior merit, but will not be responsible for future results or failures. Errors should be reported at once.

PURCHASERS OF DAHLIAS MAY TAKE THE FOLLOWING LIBERAL DISCOUNTS

Orders amounting to \$10.00, add stock to the value of 10% of the order.

Orders amounting to \$20.00, add stock to the value of 15% of the order.

Orders amounting to \$25.00 or over, add stock to the value of 20% of the order.

No further discounts allowed on sets or made-up collections where a discount is already figured off or where special rates are given. Nursery department prices are also net.

Don't be surprised if you find an "Extra" in your order. We try to show appreciation.

NOTE—CASH DISCOUNTS ARE NOT PERMISSIBLE. THE DISCOUNT MUST BE TAKEN IN STOCK. ORDER EXTRA STOCK FOR DISCOUNT VALUE.

DAHLIAS

Those marked (W) are Wilmore Originations

Mrs. Verner Z. Reed (W) 1933

This new decorative dahlia is indeed a Dahlia of Distinction. It combines all the good qualities of a modern first-class dahlia. Upright, vigorous growth reaching a height of from 5 to 6 feet. Stems and trunk dark metallic shade. Stems very long and wiry holding the gorgeous flower in perfect position. Flowers range from 7-9 inches in diameter. By disbudding much larger. The color is a unique shading not often seen in a flower and one difficult to properly describe. Perhaps violet-lavender would be near to its color. Yet it has a shading of old rose and amber at the base of the petals. A strikingly handsome flower. Strong roots, \$3.00 each.

Mrs. Henry Sewall (W) 1932. Hybrid Cactus

The plant is of extra strong growth with broad healthy leaves and strong side branches. Grows to a height of 4 to 5 feet. Flower stems are long and rigid, holding the flower well above the foliage with no suggestion even of drooping. Flowers are extra large with a diameter of 8 to 9½ inches naturally. By disbudding will reach a diameter of 11 to 12 inches. Petals are long and shaggy, curving backward giving a plume effect. Color, lemon yellow without shading or variation, nor does it show fading with age. An early and continuous bloomer. Mrs. Henry Sewall is superior to any yellow dahlia we have yet seen. An abundant producer of roots. Price, roots, \$2.00 each.

Dr. Henry Sewall II (W) 1932. Decorative

A companion flower to Mrs. Henry Sewall, as these two illustrious people have been to each other through life. Dr. Henry Sewall II is a fine new decorative. Strong and erect in growth with strong healthy foliage and an abundance of large fine flowers borne on long stems. Flowers medium to large, finely formed, and always full centered. Plant attains a height of 5 to 6 feet. In color a unique shade not often found in flowers. Perhaps the nearest description would be a red copper shade clear in tone. An early and constant bloomer holding its size throughout the season. Strong roots, \$1.50 each.

Dahlmoor Orchid (W) 1933

This superb new dahlia is of the Hybrid Cactus type. A sturdy, healthy plant with heavy broad leaves, attaining a height 4-5 feet. Stems medium and heavy, producing its flowers face upward at the end of the stem. In size the flowers are medium to large and of heavy substance. Petals beautifully curved at the tips and quite full to the very center. Color, clear orchid pink, a pleasing shade. Highly recommended. Strong roots, \$1.00 each.

Dahlmoor Perfection (W) 1933

An immense flower produced on rigid stems of medium length, holding its flowers to full view. Plant, a sturdy, erect grower with a wealth of heavy dark foliage, and a prolific root growth. In type the variety would be classed as Decorative, yet there is a suspicion of the Hybrid Cactus shown at the petal's tip. Color, rich royal purple, bright in tone and constant even in the strongest sunlight. A very striking flower. Strong roots, \$1.50 each.

A GALAXY OF NEW DAHLIAS

(In Explanation: "Dahlmoor" is the Home and Grounds of W. W. Wilmore)

It is to be regretted that this page of new introductions could not each have had a page illustration as given those of the first six pages, but space could not be given. All on this page are meritorious, high-class dahlias and are by far the best lot it has been my good fortune to originate and introduce in a single year. It is also regrettable that these fine originations come on in a time of financial depression at half their real worth.

All Dahlias in these pages marked (W) are Wilmore originations.

Dahlmoor Opalescent (W) 1933

A Decorative of perfect form produced on stems, medium in length. Growth and habit is excellent. Flowers profusely. Color, a unique shading of crushed strawberry with lavender shading. Flowers large with the broad petals slightly reflex in formation. Strong roots, \$1.00. Height, 4 feet.

Dahlmoor Oriental (W) 1933

A new Hybrid Cactus. The growth of this plant is dwarf with numerous side branches. Finely formed flowers, medium to large size. Stem medium to long. Color, bright copper shaded old gold, a highly recommended variety. Strong roots, \$1.00 each. Height, 3 feet.

Dahlmoor Radiant (W) 1933

Radiant is a Decorative form. The plant is of tall growth reaching to 6-7 feet, well branched, an early and free bloomer. Stems are remarkably long and wiry, holding its blooms above the foliage. Color, rich garnet red without shading or fading in the strong sunlight. Blooms, medium to large in size. Strong roots, \$1.00 each. Height, 6 feet.

Dahlmoor Sunset (W) 1933

Hybrid Cactus in type. Blooms very early and continues through the season. Plant is dwarf and of spreading habit. Stems long and erect. Flowers, very large and well formed. Color, rich apricot and bronze, a striking new dahlia. Strong roots, \$1.00 each. Height, 3 feet.

Dahlmoor Twilight (W) 1933

A Decorative form of excellent growth and heavy foliage. Flowers 7-8 inches, on medium length stems. Color not easily described, a shading of opal and fawn pink with a darker shading of violet and old rose. Strong roots, \$1.00 each. Height, 4 feet.

Belle of Dahlmoor (W) 1933

Of Decorative type. A vigorous plant with large leathery leaves. Blooms, medium to large on good wiry stems. Color, lavender pink. A fine variety. Strong roots, \$1.50. Height, 3 feet.

Queen of Dahlmoor (W) 1933

An early and free-blooming variety of Decorative form. Strong, healthy foliage with very long stems holding the flowers erect. Flowers, very large, 7-9 inches without disbudding. Color, fawn pink with violet shading, an exceptionally beautiful flower. Strong roots, \$1.50. Height, 4 feet.

Edith Bent (W) 1933 (This also is a Dahlmoor)

Decorative in form. Plant of good habit. Flowers, large and well-formed. Stems, medium to long. Color, vivid scarlet without shading. Strong roots, \$1.00. Height, 4 feet.

Dahlias That Made Denver Famous

Elizabeth Long (W). Introduction of 1930

A giant in both flower and robust plant, attaining a height of seven feet under good cultivation, producing immense flowers on exceptionally long erect stems. Normally the flowers make a diameter of 8-9 inches. By disbudding they will easily make an 11-inch diameter. It is an early and continuous bloomer, in type a pronounced Hybrid Cactus. The color is difficult to describe in a way to do it justice, as it combines many shadings, running through amber, pink, and bronze, a pleasing combination of autumn tints. Among its other good qualities it has proven an excellent variety for cutting. Strong tubers, \$1.00 each.

Pride of Fort Morgan

This Giant Red Decorative was introduced 4 years ago by R. J. Curry of Fort Morgan, Colo. Was originated, as I understand, by J. W. Phlager. Whatever its origin or parentage, it is a wonderful dahlia and proved the center of attraction of our dahlia show. Stock which we grew the past season proves the claims of its introducer that it is the largest and best red Decorative of the dahlia world. The specimen from which the above photo was taken measured $9\frac{1}{4}$ inches without disbudding. Disbudded it would doubtless reach the 10 to 13 inches claimed by the originator. Color, a most intense red. Plant, a sturdy grower. Stems, medium length, holding the flower erect. Strong tubers, 50c. Height 4 feet.

Cloudland Gem

A superb decorative dahlia borne on long, wiry stems. Plant of dwarf bushy habit rarely attaining a height of over 3½ feet. Flowers large and evenly formed. Color, a delicate shade of day-break pink. An extra fine variety and highly recommended. Strong roots, 50c each.

Bargain Collections

These collections are arranged for the convenience of the purchaser, especially those unfamiliar with varieties and those wanting a limited collection of choice varieties distinct in colors. Full descriptions will be found of each variety in the body of the Catalog. As a liberal discount is already figured off, no further discounts allowed on any of these collections.

These collections are not subject to any further discount.

Rainbow Collection

As the name suggests, this collection embraces a wide range of color and includes several of the most popular types.

A fine collection for a moderate price.

Set of 12 postpaid, \$11.00. (Catalog value, \$13.75)

Dahlias of Special Merit

Various Types of Recent Introduction and Others.

Prices quoted are for strong tubers. Figures to the right indicate height.

	Ft. High, Approximate.		Ft. High, Approximate.
ALPINE WONDER (W). (Hybrid Cactus). Flowers snowy white, large and full, produced in groups of three, each on fine long stem. An early and constant bloomer. 50c each	4	rigid. Color, clear apricot. An early and profuse bloomer. 50c each.....	3 1/2
AMUN RA. Originated and introduced by Jessie Seal. This fact in itself is the highest guarantee. A mammoth decorative Dahlia borne on stout stems of good length. The flowers are gorgeous. In color a combination of copper, orange and golden bronze. Highly recommended. 50c each.....	4	CLOUDLAND GEM. (Decorative.) A superb dahlia borne on long, wiry stems. Plant dwarf and bushy. Flowers extra large and of perfect form, a delicate day-break pink. Extra fine, strong roots. 50c each....	3
ANDY GUMP (W). (Decorative.) Flowers above medium size, stems exceptionally long, 18 to 24 inches, rigid and erect. Color bright red. As a cutting variety this one has no superior. A fine variety. 50c each. 5	5	DORIS WILMORE (W). (Peony.) An exceptionally fine peony dahlia of large size. Long, erect stems and an excellent keeper as a cut flower. Color, rich apricot bronze. Highly recommended. 50c each.....	4
ATLANTIC OCEAN. (Hybrid Cactus.) A fine large flower borne on long stems. Blooms well above the foliage. Color bright lemon. Fine in every way. 50c each.....	4	EDITH BERYL. (Decorative.) Flowers medium to large on fine rigid stems of good length. Plant strong and robust. Color, old gold shaded to bronze. A fine cutting variety. 50c each	5
AVALON. (Decorative.) One of the largest of dahlias, with fine stem, and a good keeper. Clear, rich yellow. Highly recommended. 50c each	4	EDNA FERBER. (Hybrid Cactus.) Very large and full with curved shaggy petals. Stems long and rigid. Color, coral shaded to old gold. One of the best of modern dahlias. 75c each.....	3
BALLET GIRL. (Cactus.) A beautiful large flower of perfect form. Color soft orange scarlet marked with pure white, one of the best of the cactus varieties. 50c each.....	3	EAGLE ROCK BEAUTY. (Hybrid Cactus.) A fine erect growing plant with many side branches. Flowers large and of perfect form. Peach blossom pink blooms in profusion. A fine dahlia. 50c each.....	5
BASHFUL GIANT. (Decorative.) One of the largest dahlias introduced. The immense blooms are excellent for exhibition, the color is apricot with golden shadings. 50c each	3	ENCORE (W). (Decorative). Combining many of the best qualities of a first class dahlia. Form, stem, and habits all good. Clear, delicate pink, faintly tinged with lavender. A seedling of the popular Mrs. Carl Salbach but much lighter in its coloring. An early and free bloomer. 50c each	5
BLUE BIRD. (Decorative.) A fine large flower on excellent stems. Probably the nearest approach to a blue yet originated. In the twilight it appears quite a distinct blue. 50c each	3	GEO. W. GERO. A seedling of the popular Grand Duke Alexis, which it resembles closely in form, only the flower is a little more densely quilled. A rank, healthy grower, producing a wealth of large perfectly formed flowers on long stems. Color, clear rich pink. A fine cutting variety. 50c each.....	5
BOB. PLEUSE. (Hybrid Cactus.) Dark maroon, heavily tipped with white. An early and free bloomer, very showy. 50c each.....	4	GEORGIA BOND (W). (1925) A new decorative for 1925. Georgia Bond produces very large, well formed flowers on exceptionally long, wiry stems; color a soft clear lavender; an early free bloomer. 50c each....	4
BUTTERFLY. (Decorative.) A flower of medium size on fine stems. A pretty shading of cream pink. An attractive flower, very useful for cutting. 50c each.....	3	GOLDEN WEST. (Cactus.) A superb flower of exceptional size, often 7 inches across. Stems long and rigid, holding the flower to full view. Color, golden yellow shaded to pure yellow in center. Has no superior. 50c each	4
CHAMPAGNE. (Decorative.) An exceptionally fine large flower borne on strong erect stems. Orange buff, suffused with a shading of pink. A superb dahlia. Attractive to all. 50c each	5	GUARDIAN. (Cactus.) Intense red. Flowers large with very narrow pointed petals. Stems long. 50c each.	
CHICOTA (W). (Peony.) An ideal golden yellow of large size and exceptionally long stems—often 18 inches in length. Flower perfect in form and clear in its rich golden yellow. Fine. 50c each.....	3	HELEN HOLLIS. (Show.) A fine ball shaped flower on excellent stems and a good cutting variety. Color, vivid red. 50c each.	
COLONIA (W). (Cactus.) Plant rather dwarf and bushy, stems long and

INKYO. A nearly black hybrid cactus that produces an abundance of dark red incurved blooms. Everyone who has grown this dahlia is enthusiastic in its praise. 50c each.		words of praise have come from those who grew the variety. The immense orange-red flowers are pleasing to all. 50c each.....	6
ISA (W). (Peony.) Light fawn pink, changing with age to amber yellow. A free and constant bloomer. Stems very long and wiry. Very attractive for evening decoration. A queenly flower. 50c each.....	5	LA VETA (W). (Peony.) Nearly double. A finely formed flower on excellent stems. An early and free bloomer. A fine cutting variety. Color, a combine of pink and bronze. Fine for garden or commercial use. 50c each	4
JANE COWL. (Decorative.) wonderful new dahlia and a prize winner whenever shown. Flowers are immense in size, averaging 8 to 11 inches in diameter and of fine substance and keeping qualities. Color, old gold with amber shadings. 50c each	5	LOST GOLD. (W) (Hybrid Cactus). Plant dwarf with many side branches. Stems, long and wiry. Flowers large—7-8 inches. Color, a shade of amber to old gold. 50c each	3
J. D. LONG (W). (Decorative.) Among the most useful of all dahlias. Perfect of form, fine long stems, and a wonderful keeper as a cut flower. Color most pleasing amber bronze with delicate pink shading. Awarded first prize for the best dahlia of any type at a recent dahlia show in Los Angeles. 50c each.....	5	LOUIS, JR. (Hybrid Cactus.) Deep velvet maroon. Rich in color and fine in form. Petals slightly twisted, giving it the popular shaggy form. Fine stems. 50c each.....	4
JERSEY'S BEACON. (Decorative.) A decided novelty of Chinese scarlet with a paler reverse, giving a two-toned effect. An exhibition flower of vigorous growth, excellent stem. 50c each	3	LUCY DAVIS. (Decorative.) One of the best of the R. T. Davis originations. Flowers, very large, yet giving no suggestion of coarseness. Stems are very long and erect. Color, rich golden apricot, without shading. An excellent cutting variety. 50c each	5
JERSEY'S BEAUTY. (Decorative.) A fine true pink decorative dahlia of perfect form on long stiff stems that hold the flowers high above a strong, vigorous plant. 50c each....	5	MAID MARIAN. (Hybrid Cactus.) Flowers large and produce freely on good stems. Petals curve and twist, giving the flower a shaggy appearance. This variety is highly recommended. Color, rose pink. A very handsome variety. 50c each....	4
JERSEY MAMMOTH. (Hybrid Cactus.) One of the largest dahlias grown; 11 to 12-inch specimens are not unusual. Massive dark green foliage. Stems medium but stout, showing the flower above the foliage. Color, dark old gold. Ideal for those who admire the extra sized dahlias. 50c each.....	5	MARMION. (Decorative.) Among the largest of all dahlias. A sturdy, massive plant with excellent stems which hold the massive flower above the foliage. Color, golden yellow, shading to tinges of bronze. 75c each	4
JUDGE MAREAN. (Show.) A well-known exhibition variety. A profuse bloomer on good stems. Color, a combination of salmon, red, orange and yellow. Tubers 50c each. 3	3	MEDITATION (W) 1930. (Decorative.) Flowers of medium size, borne on long, erect stems. Color, light delicate lavender. A free and early bloomer. Highly recommended, 50c each	4
KALIF. (Hybrid Cactus.) A truly majestic flower. In color a pure scarlet. The habit of the plant is all that can be desired. The gigantic flowers, which are produced very freely, are held erect on strong, stiff stems, making it a most effective and useful variety for cutting as well as for garden decoration. 50c each	4	MORDELLA. (Decorative.) A fine, large flower, perfect in form and borne on fine, long wiry stems. Color, salmon pink to old rose. A dahlia of fine habit and one highly recommended. 50c each.....	5
KENNETH GILBERT. (W) (Decorative.) A sturdy plant producing a mass of flowers. Flowers, medium to large and perfect in form. Color, mellow pink shaded cream pink. 50c each	4	MRS. CARL SALBACH. (Decorative.) Extra large and of beautiful form and always full to the center. Stems are exceptionally long, holding the flower erect. Color, soft lavender-pink. Among the very best of recent introductions. 50c each.....	5
KIWANIAN. (W) (Peony.) This dahlia has been the sensation among the peony types from its introduction in 1926. Of immense size on very long stems—18-24 inches—showing well above the foliage. Color, rich American Beauty red. (The name was given by the Golden, Colorado, Kiwanis Club, August 25, 1925). 50c each.....	5	MRS. C. D. ANDERSON. (Show.) A new New Jersey dahlia far above the average show type. Stems long and wiry. Flowers large and almost round in form. Color, rich clear purple. An early and very prolific bloomer. 50c each.....	4
LAURA BARNES (W). (Peony.) Beyond question one of the grandest peony dahlias ever introduced. Only		MRS. I. DE VER WARNER. (Decorative.) Large, perfect flowers of charming color; a deep mauve-pink, on stout stems. A good grower and free bloomer. Can be grown to a diameter of 11 inches. One of the best dahlias in cultivation. 50c each	4
		NANAQUAKET. (Decorative.) A large well formed flower on extra length stems. Color, orchid pink. A very free bloomer. 50c each.....	3

Highly recommended. 50c each..... | 6 |
| PFLAGERS VICTORY. (Decorative.) (Originated by J. W. Pflager). A 1931 introduction. This dahlia is one of the finest whites to date. Flowers, very large and of excellent form. Stems, medium. Color, pure white. Highly recommended. 75c each | 3 | TOM JOY —A giant decorative. One of the largest I have seen and the very best of stems, beautiful autumn shades, bronze and old rose with the old rose predominating. I believe it to be the best dahlia grown in my garden this season. \$2.00 each. | |
| PRIDE OF CALIFORNIA. (Decorative.) An extra large fine flower, borne on long stems. Very large and full vivid red. Exceptionally fine. 50c each | 4 | TOMMY ATKINS. (Decorative.) The ideal scarlet. One of the most vivid colors among dahlias. Flowers large and full. Stems long and erect. Among the very best of dahlias. 50c each | 4 |
| RADIO. (Decorative.) Without a doubt one of the greatest dahlias ever originated. Can be grown 11 to 12 inches in diameter. Color, blood red, edged and tipped with yellow. 50c each | 4 | VIRGINIA RAE. (Decorative.) (1931) Originated by J. W. Pflager. A fine companion for his popular Pride of Ft. Morgan. A large flower ranging from 6-8 inches in diameter. Evenly formed and quite full. Stems medium but strong. Color, old gold shaded to light terra cotta. A fine exhibition flower. 50c each..... | 4 |
| ROYCROFT. (Hybrid Cactus.) A fine, well formed flower on good stems. Plant dwarf and bushy, a marvel of productiveness. Color, copper bronze. 50c each | 3 | WASHINGTON CITY (Hybrid Cactus) An immense white flower that has few, if any, equals. Flowers from 8 to 9 inches and of purest white. Stems long and erect. One of the best of varieties. 50c each..... | 3 |
| ROLLO BOY. (Cactus.) An enormous amber and yellow cactus, one of the best of the new varieties. 50c each. 4 | | WATERLOO. (Hybrid Cactus). (J. W. Pflager origination). A beautiful dahlia of large size and perfect form. Stems long and wiry. Color, orchid pink. 75c each..... | 4 |
| ROSA NELL. (Decorative.) Mr. Broomall did the world a great service when he originated this hundred per cent Dahlia. The flower is immense; stem very long. Color, bright rose and with all a good keeper. Highly recommended. 50c each..... | 3 | WILDEMERE. (W) (Hybrid Cactus). The plant is of dwarf growth and bushy habit. Flowers, medium in size and perfectly formed. Color, fawn pink, an exceptionally fine variety for cutting by reason of long stems and excellent keeping qualities. 50c each..... | 3 |
| ROSE FALLON. (Decorative.) An immense flower of fine, perfect form. Stems long and erect. Plant robust and vigorous. Color, dark amber or brownish old gold. A variety we can highly recommend. Strong tubers. 50c each | 5 | WILLIAM G. (Decorative.) A mammoth flower of shaggy form. Plant of sturdy well branched habit. Stems amply long and wiry, holding the immense flowers erect. Flowers of excellent keeping qualities. Color, light or scarlet red. A wonderful flower. 50c each..... | 3 |
| RUTH JACQUELINE. (Davis Cactus, 1924.) A strong, robust plant throwing numerous side branches. Flowers large and perfect in form. Stems exceptionally long and strong. Color clear canary yellow. One of the very best of the yellows. 50c each | 3 | WHIP O' WILL (W). (Peony.) An immense peony dahlia with flowers from 7 to 9 inches in diameter without dis-budding. Petals are very broad and flat. Color, vivid scarlet. By far the best of its color among the peony types. Stems wiry and erect. Blooms freely throughout the season. 50c each..... | 5 |
| RUTH NICHOLS (W). (Decorative.) A fine, large flower borne on fine, long stems. Rich dazzling red, fine for cutting. 50c each..... | 4 | | |
| SANHICAN'S PEACH. (Decorative.) Color the shade of a ripe peach, with a real peach-cheek glow. The charm | | | |

- DELICE.** (D.) Its beautiful, soft, yet lively color, a glowing rose-pink, together with its perfect shape, stout, stiff stems, which hold the flowers well above the foliage, and the fact that when cut it retains its freshness longer than any variety, makes this one of the most valuable for cutting and one of the most decorative sorts in the garden..... 4
- D. M. MOORE.** (S.) A flower of mammoth size, produced in profusion on long, stiff stems. Its color is a deep velvety maroon. It has no equal in its color, almost black 3
- DREER'S WHITE.** (S.) Pure white, resembling in form the popular Grand Duke Alexis 4
- DR. I. B. PERKINS (W).** (S.) An ideal white show Dahlia. Its large, pure white flowers are borne on very long stems which hold the flower free above the foliage. Excellent for both cutting and garden decorations 5

Decorative Dahlia

- ELEANOR STISSER (W).** (D.) Flowers are very large and full. A sturdy grower with long stems. Color, buff shading to pink and old rose. A pleasing autumn shade..... 5
- FLAMINGO.** (D.) An ideal variety for cutting by reason of its fine stems and clear, rich color. Bright shell pink 3
- GENESTA.** (C.) Rich orange bronze. A fine autumn shade..... 3
- GOLDEN SPRAY (W).** (S.) Large flowers borne on long stems and produced in profusion. Bright golden yellow. A superb variety for cutting 4
- JACK ROSE.** (D.) Brilliant crimson-red, rich and glowing, similar in shade to the popular Jack Rose, which suggested its name..... 4
- LA GRAND MANITOU.** (D.) An immense flower. Color, purple mottled and streaked with crimson. Sometimes solid purple. Very attractive 3
- MAID OF KENT.** (D.) Intense scarlet, variegated with pure white; frequently a solid scarlet..... 4

	Ft. High, Approximate.		Ft. High, Approximate.
MINA BURGLE. (D.) A very free flowering sort. Flowers extra large and clear in color. Popular as a cutting variety. Dark vivid red, produced on good stems.....	4	PURPLE MANITOU. (D.) Extra large, clear purple. A sport from the popular La Grand Manitou; one of the best clear purples.....	3
MOONBEAM (W.) (D.) Large flower borne on excellent stems. Color, clear canary yellow. One of the very best of the light yellows. Blooms very freely and an excellent keeper when cut	3	QUEEN OF YELLOWS. (S.) Fine clear yellow. An early and very prolific bloomer ..	3
MRS. THOS. BURCH (W.) (D.) Rich old gold, sometimes marked with pink, shading to fawn. An ideal fall shade and one of the very best of the autumn tinted varieties. Flowers full size, stems long and rigid, fine for cutting	4	SOUVENIR DOUZON. (D.) An immense flower with broad, flat petals and full to the center. This one is undoubtedly the largest red in the decorative section	4
PURPLE GEM (W.) (S.) Rich royal purple, clear and constant. This variety is a decided improvement over the old varieties. A first-class flower	4	STRADELLA. (S.) Large purple flower, rounded and full ..	4
		VICTORY (Kaiser Wilhelm). (S.) Of immense size and perfect form. Deep yellow, tipped and shaded with cherry red	4
		W. W. RAWSON. (S.) An exceptionally fine flower, produced on long stems. Color, pure white, overlaid with delicate lavender. Similar to the popular Grand Duke Alexis, but a better bloomer	4

Pompon Standard List

PRICE 25c EACH; \$2.50 PER DOZEN

(Note: To those not familiar with the varieties of Pompons, we will make up a collection of 13, no two alike, and giving the full range of color, for \$2.50.

Pompon dahlias are rapidly gaining popular favor once more. For cutting purposes they have no equal, lasting for days even in the hottest weather.

	Ft. High, Approximate.
ACHILLES. Delicate lavender, tinted lilac	3
AMBER QUEEN. Rich old gold, fine in flower and stem.....	3
ARIEL. Deep orange buff.....	3
BRUNETTE. Red, often showing white tips	3
CLARA HARSH. Perfect blooms of yellow; tipped with crimson.....	3

	Ft. High, Approximate.		Ft. High, Approximate.
CORONA (W). A miniature decorative form of pompon. Snowy white. One of the most useful of all pompons	3	MADELINE. Pale primrose edged with rose-purple. Very free flowering	3
ELEGANTE. Quite small pink, densely quilled	3	NORA REYNOLDS. Indian red; fine ..	3
GEO. IRELAND. Lavender.....	3	PRINCE CHARMING. Lavender shades, touched with violet.....	3
ISABEL. Vivid scarlet.....	4	ROSA WILMOTH. Rose Pink. Ideal for cutting	3
JOE FETTIE. Pure white, excellent variety for cutting	4	SUNSET. Clear orange; a beauty.....	4
LITTLE BEESWING. Cherry red shaded amber. Excellent for cutting	3	VIVID. Vivid red.....	3
LITTLE DAVID. Burnt orange, fine form	3	WINIFRED. White, faint purple edge	3
LITTLE JENNIE. Straw color. None prettier than this one.....	3	YELLOW GEM. Pure yellow of excellent form and habit. The best of the yellows	3

PALE FACE PAPOOSE (W) Light straw or sulphur yellow, fine form....	3	WILD PAPOOSE (W). Redish bronze, densely quilled. Excellent form.....	3

Gladiolus

A flower now so immensely popular that description is unnecessary. Plant at intervals up to June 20 to prolong the blooming season. Heavy fertilizing should be avoided. The following varieties and groups will be found very satisfactory:

GROUP NO. 1	
75c per dozen; \$4.00 per 100	
CARMEN SYLVA. Purest white.	
CHARLES DICKENS. Radiant purple.	
DR. BENNETT. Flame scarlet.	
EARLY SUNRISE. Flame red (early).	
GIANT NYMPH. Pink; extra large.	
LOS ANGELES. Beautiful shrimp pink.	
LOYALTY. Perfectly clear yellow.	
MARMORA. Smoky lavender.	
MRS. LEON DOUGLAS. Rose, striped scarlet.	
MRS. P. W. SISSON. Lovely cameo pink.	
MRS. DR. NORTON. Pink, yellow throat.	
MRS. FRANCIS KING. Scarlet.	

Gladioli in Mixture, 35c per doz.
\$2.00 per 100

Prepaid to 4th zone only

GROUP No. 2	
\$1.00 per dozen; \$6.00 per 100	
AVE MARIA. Light blue.	
ALBATROSS. Large pure white.	
BETTY NUTHALL. Salmon and yellow.	
COMMANDER KOEHL. Immense dark scarlet.	
DR. MOODY. A large lavender.	
GLORIANA. Orange salmon.	
GOLDEN DREAM. Beautiful soft yellow.	
MOTHER MACHREE. Soft lavender and subdued orange with an overcast of gray.	
PICARDY. Shrimp pink. Extra fine.	
PFITZER'S TRIUMPH. Large red.	
VAN KONYNENBURG. Dark blue.	
W. H. PHIPPS. Bright salmon-pink.	

Peonies

NOT PREPAID BEYOND THE 4TH ZONE (600 MILES)

Fall orders for Peonies cannot be filled before October

Field of Peonies in Full Bloom

Fine, hardy plants, rivaling the rose in perfection of bloom, color and fragrance. They are at home in any climate or soil, but thrive best in a deep, rich, well-drained loam. They make a gorgeous display planted in beds, on the lawn, or planted singly along the walk or herbaceous border. The Peony is perfectly hardy and generally able to care for itself, but it does not follow that they enjoy neglect. Give them ample room in which to grow, keeping them free from weeds and grass, and they will amply repay all the care given. A word to beginners: Use no fertilizer of any kind on newly set Peonies. Don't be alarmed when you see your newly set Peonies begin to turn brown in July and appear to be quite dead in August. This is natural. They will be on hand again in the spring.

The following varieties embrace a wide range of color and will be found very satisfactory. Prices quoted are for strong divisions.

Fine old favorites for beds or border. They have a wide range of gorgeous colors and delightfully fragrant.

Fertilizers should not be applied to new-set peonies.

BARONESS SCHROEDER. Delicate flesh, changing to white. Flowers very large. An extra fine peony. 75c each.

DUKE OF WELLINGTON. Ivory white with creamy white center. Very large. An extra fine peony. 50c each.

EARLY ROSE. This is an old peony, but one of the most reliable. 50c each.

FELIX CROUSSE. The well known brilliant dark red. The leader among reds. 75c each.

FESTIVA MAXIMA. A rare variety of great beauty. Exceedingly showy and of large size. Pure snowy white, flaked with small crimson spots at center. Finest white in cultivation. 50c each.

GOLDEN HARVEST. Blush guard petals; center petals narrow, showing yellow stamens. 50c each.

JEANNE d' ARC. One of the best of all the light pink varieties. Medium pink shading to almost white. Very fragrant. 75c each.

KARL ROSENFELD. Rich velvety crimson. Large globular flower, 75c each. A popular red.

LADY LENORA BRAMWELL. Very large and sweet. Silver rose. 50c each.

MAD. BREON. Flesh and lemon, changing to white. 50c each.

MODEL DE PERFECTION. Silver pink. Large and sweet. 50c each.

MONS. JULES ELIE. The peerless pure pink. Broad reflexing guards with a high pyramidal body. One of the largest, handsomest and most lasting cutting sorts in existence. 75c each.

OFFICINALIS RUBRA. (Old Red.) Flowers of a bright crimson, quite double and globular. Very early and fine. Two-year-old clumps, 75c each.

PRESIDENT TAFT. (Reine Hortense) Among the best of all peonies. Large full flower, delightfully fragrant. Color a delicate shell pink. A vigorous free bloomer, 75c each.

PRINCESS BEATRICE. Pink guard petals, center creamy pink. Late bloomer. 50c each.

ROSEA SUPERBA. Fine, full rosy pink. Extra choice flower. Very free and early bloomer. 50c each.

(NOTE—There is a very general impression that peonies must be set in the fall. This is a bit of nonsense. If peony stock has been dug in the fall and held over winter in damp storage they will do fully as well when set in the early spring.)

NURSERY DEPARTMENT

Trees, Shrubs, Fruits, Evergreens, Roses, Vines, and Hardy Perennials

Buy Colorado grown Nursery Stock, etc. No stock can be obtained in any section of the United States with better root systems or of hardier growth than that produced in our mile-high altitude; this means that losses are held to a minimum. All our stock has passed inspection of the State Authorities and pronounced free of injurious insect pests and disease.

Trees, Shrubs, Tree Fruits and Evergreens are NOT PREPAID where shipments are made. They travel express or freight—charges collect. Other items herein listed are prepaid at quoted prices.

We also have larger and smaller sizes of most of the following. Prices on application. If what you desire is not listed, write for quotation.

DECIDUOUS TREES

ACER—MAPLE

Mostly deciduous trees, used extensively for lawn, park and street planting. Most of the species are hardy in northern states. Ordinary soil is satisfactory for Maples. Strong and free growing subjects.

Acer ginnala; Amur Maple (to 20 ft.) Graceful shrub or tree. Flowers fragrant with conspicuous red fruit throughout the summer. In autumn the foliage changes to brilliant red. 3-4 ft., \$1.00.

A. platanoides; Norway Maple. (50 to 60 ft.) Hardy, popular tree. Fine for park and street planting. Spreading habit with bright green foliage. 1¼-1½ in., \$2.50; 1½-2 in., \$3.50; 2-2½ in., \$5.00; 2½-3 in., \$7.00.

A. platanoides var. Schwedleri; Schwedler's Maple (40 to 50 ft.) This Maple is one of the most attractive trees under cultivation. It is often called Purple Leaf Maple, because of its reddish purple leaves in the spring. 6-8 ft., \$2.75; 8-10 ft., \$4.00; 1¼-1½ in., \$5.50; 1½-2 in., \$8.00; 2-2½ in., \$11.00; 2½-3 in., \$15.00.

A. saccharinum; Silver Maple. (60 to 80 ft.) This is a fast growing maple and well known. Leaves are silverish underneath. 8-10 ft., \$1.25; 1¼-1½ in., \$2.00.

A. saccharinum var. Wieri; Wier's Cut-leaved Maple (40 to 50 ft.) Similar to the Silver Maple, except that the branches are drooping and leaves are deeply cut. 2-2½ in., \$5.00; 2½-3 in., \$6.00.

A. saccharinum var. Skinneri; Skinner's Cut-leaved Maple (to 50 ft.) A very attractive form of Silver Maple with dense cut leaved foliage, and graceful, drooping branches. Rapid grower. 2-2½ in., \$5.00; 2½-3 in., \$6.00.

BETULA—BIRCH

Trees and shrubs, thrive on moist sandy soils. Suitable for northern climates.

Betula alba; European White Birch. (30 to 40 ft.) Very attractive tree with white bark. Good for lawn and park

Bechtel's Crab—See next page

INSIST ON COLORADO GROWN STOCK

planting. 8-10 ft., \$3.00; 1¼--1½ in., \$4.00.

Betula alba var. pendula laciniata; Cutleaf Weeping Birch. (30 to 40 ft.) A graceful, white barked tree with drooping limbs and delicately cut-leaved foliage. Highly recommended for lawn and park planting. 6-8 ft., \$3.00; 8-10 ft., \$4.00. Larger trees up to 3 inches in caliper, \$6.00 per inch.

CELTIS—HACKBERRY

Trees or shrubs with alternate Elm-like leaves. Most species are hardy in northern states, where they are grown for shade and ornament.

Celtis occidentalis; Hackberry. (40 to 50 ft.) We consider this tree one of the best. It has a rapid spreading growth similar to the American Elm. Limbs are seldom broken from wind and it is free from insects and disease. 1½-2 in., \$3.00; 2 to 2½ in., \$4.00. Larger trees up to 4 in. in caliper at \$2.25 per inch.

CRATAEGUS—HAWTHORN

Spiny deciduous shrubs or small trees. Desirable ornamental subjects

Crataegus coccinea; Thicket Hawthorn (to 10 ft.) Shrubs or small trees, bearing white flowers, followed by a dull red fruit which it carries well into the winter. In the autumn, the leaves turn into a galaxy of color. Very hardy. 3-4 ft., \$1.50; 4-5 ft., \$2.00.

ELAEAGNUS—OLEASTER

Ornamental shrubs or small trees. Grow in any well-drained soil and sunny location.

Elaeagnus angustifolia; Russian Olive (20 to 40 ft.) An ornamental tree of special value; attractive silver gray leaves, grayish white berries. It blooms profusely in June, flowers yellow and very fragrant. An excellent tree for semi-arid districts. Desirable for mass planting. Used frequently for hedges and windbreaks. Very hardy. 6-8 ft., \$1.25; 8-10 ft., \$2.00.

GLEDITSIA—HONEY LOCUST

Planted as specimen and for shade; they are adapted to most soils.

Gleditsia triacanthos var. inermis; Honey Locust. (50 to 60 ft.) This is the thornless form of Honey Locust. Fragrant white flowers in May. Long lived, hardy tree. Succeeds on most any kind of soil. Not affected by borers. 1½-2 in., \$2.50; 2-2½ in., \$3.50. Large sizes up to 4 in. caliper at \$2.25 per in.

MALUS—APPLES

Trees and shrubs of high ornamental and commercial values.

Malus ioensis var. plena; Bechtels Flowering Crab. (12 to 15 ft.) A beautiful, double pink, flowering crab with fragrant flowers, May-June. Perfectly hardy, succeeds well in most soils not extremely wet. The only fragrant double crab. 2-3 ft., \$1.25; 3-4 ft., \$2.00. (See cut, page 18.)

POPULUS—POPLAR, ASPEN AND COTTONWOOD

Trees and shrubs with soft wood. Widely planted for avenues, windbreaks, and ornament.

Populus alba var. pyramidalis; Bolleana Poplar. (50 to 60 ft.) One of the most striking of the columnar type

Bolleana Poplar

INSIST ON COLORADO GROWN STOCK

trees. The bark is smooth and of a light green color. It has silvery foliage and is a very rapid grower. 6-8 ft., \$1.00; \$8.50 per ten; 8-10 ft., \$1.40; \$12.50 per ten.

Populus sargentii; Cottonless Cottonwood. (60 to 90 ft.) This is the regular Western Broadleaf Cottonwood except that it does not bear cotton. Recommended for large estates and farms. 8-10 ft., \$1.00; 1¼-1½ in., \$1.50.

QUERCUS—OAK

Hardwood trees and shrubs, commonly with striking colors in autumn. Thrive on rich rather moist soils. Grown for ornament, timber and by-products.

Quercus macrocarpa; Burr Oak. (70 to 80 ft.) Long lived tree. The best oak for this locality. Deeply lobed leaves. Branches rough and corky. 2-2½ in., \$11.00; 2½-3 in., \$15.00.

Q. borealis; Northern Red Oak. (60 to 80 ft.) Very rapid grower. Rounded crown and deep green foliage which turns dark red in autumn. It should have plenty of room for development due to its rapid growth. 2-2½ in., \$11.00; 2½-3 in., \$15.00.

SALIX—WILLOW

Woody plants, grown for ornament, screens, shelter, holding of banks, and

some of the species for the twigs from which baskets are made. Adapted to moist conditions. Grow rapidly.

Salix niobe; Niobe Weeping Willow. (30 to 35 ft.) This willow is a hybrid between the White and Crack Willows. It is an exceptionally strong, hardy, graceful tree. Splendid weeping habit and very attractive golden bark. 6 to 8 ft., \$1.00; 8 to 10 feet, \$1.25. Larger trees up to 4 in. caliper at \$1.50 per inch.

NOTE—The Niobe Willow is not guaranteed. We deliver good live trees but are not responsible for future results at above prices.

SORBUS—MOUNTAIN ASH

Deciduous trees or shrubs, most of the species are hardy in the north, and will thrive even in dry soil.

Sorbus aucuparia; European Mountain Ash. (20 to 40 ft.) A valuable ornamental tree with scarlet berries from July to winter, also beautiful fern-like green foliage. The combination of berries and foliage makes this one of the most striking and beautiful trees that grow. 6-8 ft., \$2.00; 8-10 ft., \$3.00.

ULMUS—ELM

Elms are favorite shade and avenue trees and some of them being among the hardiest lawn and street trees.

THE WONDERFUL CHINESE ELM

A street planting of Chinese Elm (*Ulmus Pumila*). Trees are seven years old, forty feet high, ten inches in diameter. Description follows.

INSIST ON COLORADO GROWN STOCK

THE WONDERFUL CHINESE ELM
(See cut, page 20.)

The correct name for this tree is the Dwarf Asiatic Elm. Very often called Siberian Elm.

The beautiful Chinese Elm (*Ulmus pumila*) is a very rapid growing tree, often attaining a height of 40 feet or more with a trunk circumference of thirty-five inches or more in six years. This Elm is gradually replacing the other elms for shade and parking trees.

The U. S. Department of Agriculture in its Bulletin No. 945 says:

"It is a rapid grower, with slender, almost wiry branches. It is one of the first trees to leaf out in the spring and the last to shed its leaves in the fall. Remarkably free from the usual plant diseases and insect injuries so common in many of the elms.

"It is very hardy and has proved valuable under a greater variety of climatic and soil conditions than any tree yet introduced. Very favorable reports have been received from practically every section of the country.

"Its resistance to drought, alkali, and extremes of temperature render it an especially valuable tree."

Strong, well shaped and well rooted trees, at following prices:—

(Caliper is the diameter of trunk at the base)

	Each	Per 10
5-6 ft.75	6.50
6-8 ft.	1.00	8.50
8-10 ft.	1.40	12.50
1¼-1½ in. Cal.....	2.00	17.50
1½-2 in. Cal.....	3.00	25.00
2 -2½ in. Cal.....	4.00	35.00
2½-3 in. Cal.....	5.50	50.00

Prices on larger sizes up to 6-inch Caliper—on request.

We have some nice seedlings that would do to plant out as windbreaks on farms, estates, etc., at \$8.00 per 100 or \$65.00 per 1,000, 2-3 ft. size.

ORNAMENTAL SHRUBS

BERBERIS—BARBERRY

Barberries are widely grown for hedges and as specimen bushes for their general beauty and for the attractive flowers in spring and the fruits in autumn and winter. The evergreen species do best in moist well-drained light loam, but the deciduous species may have drier soils.

Berberis aquifolium; Oregon Holly-grape. (to 3 ft.) Evergreen shrub, spiny-toothed leaves, glossy, dark green above. Yellow flowers and dark blue, grape-like berries. Balled and burlaped. 12-18 in., \$1.75 each.

Berberis thunbergi; Japanese Barberry (4 to 5 ft.) Pale yellow flowers. April-May. A splendid hardy hedge plant. Also fine for mass planting. Brilliant red fruit and foliage in autumn. 18-24 in., 60c; 2-3 ft., 75c.

Berberis thunbergi var. atropurpurea; Red-leaved Barberry. (3 to 6 ft.) This is a variety of the Japanese barberry. The foliage is a rich lustrous red, becoming more brilliant and gorgeous throughout the summer and in the fall changes to vivid orange, scarlet and red shades. 15-18 in., 60c; 18-24 in, 75c.

BUDDLEIA—BUTTERFLY BUSH

Even when buddleias are not hardy north, the roots may survive with winter protection. They thrive in sunny locations in rich well-drained soil.

Buddleia davidi var. magnifica; Oxeye Butterflybush; (5 to 6 ft.) A perennial in this climate. Of rapid growth with very green foliage and attractive lilac

flowers. Blooms from June-October. The flowers are borne in dense cylindrical spikes from 12 to 15 inches in length by 3 inches in diameter. It succeeds everywhere and flowers freely the first season. No. 1, 50c.

CARAGANA—PEA TREE
(Pea Shrub)

They should be planted in sunny positions in open soil.

Caragana arborescens; Siberian Pea Tree. (12 to 15 ft.) An attractive dense growing shrub with bright green, small locust-like leaves. In early spring it bears numerous pea-like yellow flowers, followed by small pea-shaped pods that remain after the leaves have fallen. 2-3 ft., 60c; 3-4 ft., 75c.

C. aurantiaca; Dwarf Pea-Shrub. (to 4 ft.) Bushy and spreading with very showy orange blossoms and minute dark green leaves. A slow growing diminutive shrub. Thrives in dry sunny position. Used for hedging purposes. 12-18 in., 60c.

CEPHALANTHUS—BUTTONBUSH

Cephalanthus occidentalis; Button-bush. (5 to 6 ft.) Attractive foliage. Very fragrant, round heads of creamy white flowers, July to September. 3-4 ft., \$1.00; 4-5 ft., \$1.50.

CORNUS—DOGWOOD

Dogwoods are useful for group plantings and as single specimens.

Cornus alba var. sibirica; Coral Dogwood. (8 to 10 ft.) Hardy, vigorous,

upright shrub producing small white flowers. April-May. Porcelain-blue fruit. Bright red bark in winter. 2-3 ft., 50c; 3-4 ft., 75c.

Cornus stolonifera var. coloradensis; Colorado Dogwood. (to 10 ft.) Brownish-red branches. Dull white flowers, May-June. Blue fruit. Vigorous grower, hardy. Foliage turning in autumn to purple-red. 3-4 ft., \$1.00.

Cornus stolonifera var. lutea; Golden-twig Dogwood. (8 to 10 ft.) Similar to Colorado Dogwood only with bright yellow bark, fine winter effect. 2-3 ft., 50c; 3-4 ft., 75c.

COTONEASTER

Cotoneaster acutifolia; Peking Coton-easter. (6 to 8 ft.) A graceful shrub ideal for foundation or full sun planting. The brilliant autumn foliage and black fruits remain well into the winter. 3-4 ft., 75c.

CYDONIA—QUINCE

Attractive ornamental subjects.

Cydonia japonica; Flowering Quince. (5 to 6 ft.) Well known shrub producing showy scarlet flowers in April. Greenish-yellow quince-like fruits. Spiny branches. 2-3 ft., 75c.

EUONYMUS—SPINDLE TREE

Euonymus alatus; Winged Burning Bush. (to 8 ft.) Yellow flowers May-June. Interesting corky, winged branches. Leaves turning brilliant crimson in autumn. 2-3 ft., \$1.00; 3-4 ft., \$1.50.

FORSYTHIA—GOLDEN BELLS

Forsythias are amongst the showiest spring-blooming shrubs. They are not particular as to soil.

Forsythia suspensa var fortunei; Golden Bells. (to 8 ft.) Upright, arching branches. Golden yellow flowers early in April. 2-3 ft., 75c; 3-4 ft., \$1.00.

HYDRANGEA

Hydrangeas require a rich, porous and somewhat moist soil; they bloom most freely in full sun. They should be pruned rather severely in early spring.

Hydrangea paniculata var. grandiflora; Peegee Hydrangea. (4-5 ft.) A very hardy shrub with large trusses of showy double white flowers, blending into pink and bronze shades in autumn. September to October. 18-24 in., 60c.

KOLKWITZIA

Kolkwitzia amabilis; Beauty Bush. (to 6 ft.) Bell-shaped flowers, pink with yellow throat, blooms May-June. Very graceful shrub, hardy 3-4 ft., \$1.25; 4-5 ft., \$1.75.

LESPEDeza

Lespedeza formosa; Purple Bush-clover. (3 to 4 ft.) An herbaceous shrub with attractive purple flowers in September. Quite pendant when in bloom. 3 year No. 1, 75c; 4 year, \$1.00.

LIGUSTRUM—PRIVET

Privets are commonly planted for hedges and in shrubberies for ornament, and sometimes as single specimens. They are not particular as to soil.

Ligustrum amurense; Amur Privet. (to 15 ft.) Used extensively. Valuable, hardy hedge plant with rich attractive foliage. See prices under Hedges, following Shrubs.

L. vulgare; European Privet. (to 15 ft.) Old, but still one of the best. Valuable, hardy hedge plant. Attractive dark green foliage. See prices under Hedges following Shrubs.

LONICERA—HONEYSUCKLE

Honeysuckles are very popular ornamental subjects. They thrive in any good garden soil.

Lonicera tatarica var. rosea; Pink Tatarian Honeysuckle. (to 12 ft.) Hardy vigorous grower. Bright pink flowers in abundance, April-May. Red fruit. One of the most noticeable shrubs. 2-3 ft., 50c; 3-4 ft., 75c.

Virginal (Philadelphus)

PHILADELPHUS—MOCK ORANGE

Floriferous popular shrubs, very fragrant. If pruning is needed it should be after flowering, since the blossoms appear from wood of the previous year.

Philadelphus coronarius; Sweet Mock Orange. (to 10 ft.) A popular well known, hardy shrub. White, fragrant flowers in May-June. 3-4 ft., 75c.

P. lemoinei; Lemoine Mock Orange. (to 5 ft.) Semi-dwarf with attractive foliage, producing dense racemes of small fragrant flowers. 2-3 ft., 75c; 3-4 ft., \$1.00.

P. virginialis; Virginal Mock Orange. (to 8 ft.) Medium grower. Loads down with beautiful fragrant semi-double flowers over a long season, beginning in May. 2-3 ft., 75c; 3-4 ft., \$1.00.

INSIST ON COLORADO GROWN STOCK

PHYSOCARPUS—NINEBARK

Deciduous spirea-like shrubs.

Physocarpus opulifolius var. luteus; Golden Ninebark. (to 10 ft.) Has bright yellow leaves becoming bronzy. White flowers in May-June. 3-4 ft., \$1.00

P. opulifolius var. nanus; Dwarf Ninebark. (4 to 5 ft.) A dwarf form of Ninebark. White flowers in clusters. Small leaves. 18-24 in., 60c.

POTENTILLA—CINQUEFOIL

Potentillas are grown mostly in the border or rock garden, also useful in the flower garden.

Potentilla fruticosa; Shrubby Cinquefoil. (to 4 ft.) A dwarf-growing shrub. Bright yellow flowers throughout the summer. Very hardy. 18-24 in., 75c.

PRUNUS—STONE FRUITS

Includes plums, apricots, peaches, cherries and cherry-laurels. They are not particular as to soil.

Prunus cistena; Purple Leaf Plum. (to 10 ft.) A very attractive shrub. Hardy. Leaves are purplish-red in color. 2-3 ft., 85c; 3-4 ft., \$1.25.

P. glandulosa var. sinensis; Double Pink Flowering Almond. (to 5 ft.) Beautiful double rose colored flowers, snuggling tight to the branches. Blooming in April and May. 2-3 ft., \$1.00; 3-4 ft., \$1.50.

P. triloba; Flowering Plum. (10 ft. or more.) A handsome, hardy, vigorous, large shrub or small tree with double pink flowers in April-May. Will succeed over a wide territory. Superior to the Flowering Almonds. 2-3 ft., \$1.00; 3-4 ft., \$1.50.

RHUS—SUMAC

Planted mostly in shrubbery borders for the luxurious effect of the pinnate foliage, the bright red autumn color, and the dense fruit-heads.

Rhus typhina var. laciniata; Shredded Sumac (10 ft. or more.) The leaflets are laciniately toothed, very delicate and fern-like. Leaves turn into an array of color in autumn, also clusters of crimson berries. Very rapid grower. 3-4 ft., 75c; 4-5 ft., \$1.00; 5-6 ft., \$1.50.

RIBES—CURRANTS, GOOSEBERRIES

Ribes alpinum; Mountain Currant. (to 6 ft.) A hardy, dense shrub suitable for hedges or mass planting. Scarlet berries in late summer. 18-24 in., 75c.

ROSA—ROSE

A large genus of shrubs, furnishing many ornamental subjects.

Rosa foetida var. bicolor; Austrian Copper Rose. (to 6 ft.) One of the best of the brier roses. The flowers are coppery colored, shaded with bronze and yellow, very attractive. No. 1, 2-yr. \$1.00 each; 2-3 ft., \$1.50 each; 3-4 ft., \$2.00 each.

R. blanda; Meadow Rose. (to 6 ft.) Bright shiny green foliage, turning brilliant red in autumn. Branches remain bright red throughout the winter. Single pink blossoms, followed by an abundance of red fruits. 2-3 ft., 60c; 3-4 ft., 75c.

SALIX—WILLOW

Salix irrorata; Bluestem Willow. (to 10 ft.) Indigenous shrub. Twigs covered with a bluish glaucous bark. Leaves dark green with whitish midrib. Densely flowered with dainty "pussies" in early spring. 3-4 ft., 75c; 4-5 ft., \$1.00.

SAMBUCUS—ELDER

Elders are effective when planted in mass, and are also grown for the fruit which is edible in some species. Thrive in rich rather moist soils.

Sambucus canadensis var. aurea; American Golden Elder (to 8 ft.) Hardy rapid growing shrub with outstanding green and yellow foliage. Produces edible fruits. 2-3 ft., 75c; 3-4 ft., \$1.00.

SHEPHERDIA—BUFFALOBERRY

Shepherdia argentea; Silver Buffaloberry (to 18 ft.) Shrubs or small trees. Valuable for its great hardiness. Silverish leaves and red fruits. The fruit is edible and can be made into jellies. Adapted to dry rocky soils. 2-3 ft., 75c; 3-4 ft., \$1.00.

SORBARIA—FALSE SPIREA

They spread rather rapidly by suckers. Thrive in rich moist soil.

Sorbaria sorbifolia; Ural False Spirea. (4 to 5 ft.) Leaves out very early in the spring, showing very attractive ash-like foliage, followed with large, fluffy heads of white flowers, June-July. 2-3 ft., 75c; 3-4 ft., \$1.00.

SPIREA

Popular ornamental subjects for lawn and landscape planting. Spireas thrive in any good soil but require plenty of moisture and sunny exposure.

Spiraea arguta; Garland Spirea. (to 6 ft.) Upright, hardy shrub, small bright green leaves covered with single white flowers April-May. We consider this Spirea much better than the popular Vanhoutte Spirea. 3-4 ft., 75c.

S. billiardi; Billiard Spirea. (to 6 ft.) Has dense spikes of rose-pink flowers that crown sparsely twigged erect branches. For shrubbery groups, natural plantings and moist places. July-September. 3-4 ft., 75c; 4-5 ft., \$1.00.

S. froebeli; Frobel Spirea. (to 4 ft.) Vigorous, spreading grower. Bright pink flowers, May-June. Purplish tips in spring. Beautiful autumn colors. Very hardy. Used extensively, and a fine dwarf shrub. 18-24 in., 60c; 2-3 ft., 85c.

S. latifolia; Pink Meadow Spirea (to 5 ft.) An upright narrow-leaved shrub, cone shaped pink flowers. Similar to Billiard Spirea, but somewhat pendant. 3-4 ft., 75c; 4-5 ft., \$1.00.

S. trichocarpa; Korean Bridal Wreath. (to 6 ft.) New hardy spirea. Similar to Vanhoutte Spirea. Blooms a little later, and the flowers are larger. 2-3 ft., 75c; 3-4 ft., \$1.00.

S. vanhouttei; Vanhoutte Spirea. (to 6 ft.) Commonly called Bridal Wreath. One of the best shrubs. Graceful habit of growth. Pure white flowers April-May. Blooms profusely. 2-3 ft., 50c; 3-4 ft., 75c; 4-5 ft., \$1.00.

INSIST ON COLORADO GROWN STOCK

SYMPHORICARPOS—SNOWBERRY

Grown for the ornamental fruits, as well as the foliage and attractive habit. Not particular as to soil.

Symphoricarpos racemosus; Common Snowberry. (to 5 ft.) Attractive green foliage, pink flowers June-July. Large white fruit in clusters in autumn. 2-3 ft., 60c; 3-4 ft., 75c.

S. vulgaris; Coralberry (to 5 ft.) Sometimes called Red Snowberry and Indian Currant. Hardy shrub, succeeds everywhere. Coral red berries in Autumn and winter. 2-3 ft., 60c; 3-4 ft., 75c.

SYRINGA—LILAC

As a vernacular name, Syringa is sometimes applied to the Mock Orange or Philadelphus. Lilacs are among the most popular ornamental shrubs. They thrive in fertile rather moist soils.

Syringa josikaea; Hungarian Lilac. (to 10 ft.) Upright grower, attractive dark green foliage, dark violet, flowers in June. A sure bloomer. 2-3 ft., 75c; 3-4 ft., \$1.00; 4-5 ft., \$1.50.

S. persica; Persian Lilac. (8 to 10 ft.) Spreading habit. Slender arching branches with small leaves. Pale lilac flowers, April-May. 2-3 ft., 75c, 3-4 ft., \$1.00; 4-5 ft., \$1.50.

S. vulgaris var. alba; Common White Lilac. (12 to 15 ft.) Hardy, vigorous shrub. Attractive foliage, single white flowers. 3-4 ft., \$1.00.

TAMARIX

Grown for ornament, as wind-breaks, and along the coast as they withstand salt spray. Necessary to every planting.

Tamarix hispida; Kashgar Tamarix. (15 to 20 ft.) The best Tamarix for this climate. Feathery silvery-green foliage, with long panicles of lavender-pink flowers. Remaining in bloom throughout most of June and July. 3-4 ft., 75c; 4-5 ft., \$1.00.

VIBURNUM

Some of the viburnums are known as haws. They are amongst the most popular shrubs, and many of them assume attractive autumn colors. They make good bird refuges because of their autumn and winter fruits. They are not particular as to soil.

Viburnum dentatum; Arrowwood (to 12 ft.) Attractive foliage, bushy growth, single white flowers, April-May, followed by bluish-black fruit. 3-4 ft., \$1.00.

V. lantana; Wayfaring Tree (10 to 15 ft.) Upright, attractive green leaves, single white flowers May. Bright red fruit changing to black. 2-3 ft., 75c; 3-4 ft., \$1.00.

V. lentago; Nannyberry. (18 to 20 ft.) Large growing, upright shrub or small tree. Single white flowers in May. Shining green leaves. Large blue-black fruit. Leaves turning purplish and red-dish in fall. 3-4 ft., \$1.00.

V. opulus; European Cranberry Bush (High Bush Cranberry) (10 to 12 ft.) Well known hardy shrub. Single white flowers, April-May, followed by scarlet fruit hanging on until spring. 3-4 ft., \$1.00.

V. opulus var. sterile; Common Snowball. (10 to 12 ft.) Well known popular shrub. Blooms profusely. Large double white flowers, April-May. 3-4 ft., \$1.00; 4-5 ft., \$1.50.

HEDGE PLANTS

There are many plants that can be used as a hedge. The Privet hedge makes the most formal of any and can be kept trimmed almost to any shape desired. The shrubs for hedging are of a lighter grade than those offered as plants for the garden, and where one wants a taller growing hedge, the shrubs should be used.

(See descriptions under shrubs)

ROSES

We have spent much time in the selection, choosing some of the better varieties of the older standards, together with some of the better novelties that have come out in the last few years. These are all two year old, field grown, dormant plants. We contract northern grown roses, which prove hardier in this climate.

Bush Roses

Pink Shades

75c each; \$7.50 per dozen

DAME EDITH HELEN, excellent shape, glowing pink, very double and deep buds.

MME. CAROLINE TESTOUT, large globular flowers of satiny rose, fragrant

MRS. JOHN LAING, well-formed, double, soft pink flowers.

MRS. HENRY BOWLES, clear pink with lighter shades, very good.

OPHELIA, light salmon shading to pale yellow, popular.

PINK RADIANCE, light silvery pink, prolific bloomer.

Red Shades

75c each; \$7.50 per dozen

E. G. HILL, great massive blooms of deep red, velvety on the inside.

GRUSS AN TEPLITZ, medium sized, reddish-maroon, blooms in clusters.

RED RADIANCE, bright rosy-red form of radiance, very vigorous.

White Shades

75c each; \$7.50 per dozen

FRAU KARL DRUSCHKI, large, snow-white, free bloomer, popular.

K. A. VICTORIA, popular, snowy white rose, one of the best whites.

Yellow Shades

75c each; \$7.50 per dozen

MRS. AARON WARD, full double, attractively shaped flowers of tawny gold and pink.

SOUV. DE CLAUDIUS PERNET, popular variety of pure sunflower yellow. Fine.

SUNBURST, beautifully formed, rich yellow shaded orange.

Two-Tone Shades

LOS ANGELES, double, luminous coral pink, toned gold at base. 75c each; \$7.50 per dozen.

PRES. HERBERT HOOVER, medium orange, center red shades, large flowers. \$1.00 each; \$10.00 per dozen.

TALISMAN, glowing golden yellow stained with copper-red and orange-rose on the inside of the petal. \$1.00 each; \$10.00 per dozen.

One each of the above 17 varieties for \$11.00.

INSIST ON COLORADO GROWN STOCK

Climbing Roses

Following varieties 65c each; \$6.50 per dozen.

AMERICAN BEAUTY CLIMBER, large flowering crimson pink flowers, best grown as a pillar rose.

CRIMSON RAMBLER, small ruffled flowers, borne on individual stems, in clusters.

DOROTHY PERKINS, soft shell-pink, small, crinkly, in great clusters.

EXCELSA, double scarlet-crimson blooms with light streaks and shaded. Clusters very large.

PAUL'S SCARLET CLIMBER, intense scarlet flowers of excellent shape and moderate size, borne in small trusses. Very popular.

VINES

AMPELOPSIS

Tendrill climbing plants. Grown for covering walls, fences and arbors. They thrive in any good soil.

Ampelopsis quinquefolia var. engelmanni; Engelmann Creeper. (30 to 40 ft.) A rapid growing vine clinging tightly to brick, stone or stucco walls and climbing to a great height. It is a very hardy vine, and rarely shows winter injury even in the far north. Two-year-old plants, 50c each; \$5.00 per doz.

Ampelopsis tricuspidata; Japanese Creeper (Boston Ivy). (40 to 50 ft.) Beautiful foliage in spring and summer, changing to crimson-scarlet in autumn. Clings tight to brick, stone or concrete walls. Succeeds best in this latitude on the north or east side. 2 yr. No. 1, 60c each; \$6.00 per dozen.

CELASTRUS—BITTERSWEET

Celastrus scandens; American Bittersweet. Twining shrubs. Suitable for covering walls, trellises and the like. They thrive in common soils. Greenish white flowers in terminal racemes. Fruits in orange-yellow clusters, which remain all winter. 3 yr., \$1.00 each.

CLEMATIS—VIRGIN'S BOWER

Clematis prospers in fertile light loamy soil which is well drained.

Clematis jackmani; Jackman Clematis (to 10 ft.) Violet-purple flowers to 6 inches across, usually in threes. They bloom on wood of the season and may be pruned when dormant. Where the ground freezes about the roots the nematode disease is not prevalent. Potted, 2 yr. medium, \$1.00 each; bare root, 2 yr. No. 1, \$1.00 each. (Bare root plants for mail orders.)

Note: We guarantee good, strong, live plants on delivery, but will not be responsible for future results on above vine.

Clematis paniculata; Sweet Autumn Clematis (to 30 ft.) The flowers are of medium size, fragrant, pure white, borne in immense sheets in September. Should be provided with a trellis or something to climb as soon as it starts its growth. 50c each. (Clematis should not be set where the drip from the eaves falls upon it.)

(See cut, page 32.)

LONICERA—HONEYSUCKLE

Lonicera japonica var. halliana; Hall's Japanese Honeysuckle (to 25 ft.) Rapid growing vine with beautiful foliage.

Delightfully fragrant creamy white flowers. Makes a fine hedge or covering for walls or unsightly places. 2 yr. No. 1, 50c each.

Lonicera sempervirens; Scarlet Trumpet Honeysuckle (to 30 ft.) A rapid growing vine with clusters of trumpet-shaped scarlet flowers. Very hardy. 2 yr., 50c each.

Silver Lace Vine

POLYGONUM—FLEECE FLOWER

Polygonum baldschuanicum; Silver Fleecevine (to 20 ft.) Also called Silver Lace Vine and Bride's Veil. A hardy climber of recent introduction from the mountains of Turkestan. It is of rapid growth, frequently attaining a height of 10 to 14 feet in one season, producing a mass of foamy white flowers. 2 yr., 75c each; extra size, \$1.00 each.

WISTERIA

Wisteria, frutescens; American Wisteria (to 25 ft.) Vigorous, tall-growing vine. Massive clusters of pale blue flowers. 2 yr. 50c each.

INSIST ON COLORADO GROWN STOCK

CONIFERS

The following is a list of the better varieties of evergreens that are being used extensively in landscaping. These trees are well rooted and well shaped and are worthy of any planting. We do not have Arbor Vitaes—they are not hardy here.

Juniper Tamariscifolia

Height specified after variety indicates height tree should attain at maturity. All conifers listed are hardy here. We have other species not listed and will be glad to give prices on anything you want. Prices on larger sizes of those listed may be obtained upon application.

ABIES—FIRS

Large evergreen trees of pyramidal habit and continuous trunk. Flat leaves.

Abies concolor; White Fir (to 100 ft.) Silvery toned foliage, varying from sea-green to deep blue. Forms a compact symmetrical tree. 3-4 ft., \$10.00; 4-5 ft., \$14.00.

JUNIPERUS—JUNIPER

Evergreen mostly, small trees and shrubs. Some Junipers often incorrectly called Cedars.

Juniperus communis var. depressa plumosa; Andora Juniper. A low-growing, spreading dwarf Evergreen. Beautiful silvery green in spring, turning to rich purple bronze in autumn. 18-24 in., \$4.00; 2-2½ ft., \$5.00; 2½-3 ft., \$6.00.

Juniper Pfitzeriana

J. chinensis var. pfitzeriana; Pfitzer Juniper (to 6 ft.) One of the best low-growing forms. Spreading habit. Foliage is attractive blueish-green. 2-2½ ft., \$4.00; 2½-3 ft., \$5.50; 3-4 ft., \$7.50; 4-5 ft., \$10.00.

J. sabina; Savin Juniper (to 4 ft.) Spreading form with slender branches and dark green leaves. Excellent for foundation work and for underplanting. 18-24 in., \$3.50; 2 to 2½ ft., \$4.50; 2½-3 ft., \$5.50.

J. sabina var. tamariscifolia; Tamarix Savin Juniper (to 2 ft.) An excellent creeping form. Foliage of fine texture and with a bluish-green hue. Grows very dense and never changes color. 12-18 in., \$2.75; 18-24 in., \$4.50; 2-2½ ft., \$6.00.

Juniper Scopulorum

J. scopulorum; Colorado Silver Juniper (to 30 ft.) Silvery foliage and close symmetrical upright growth. Thrives in hot, dry weather, when the color is the brightest. Very hardy. Best of the upright-growing Junipers. 3-4 ft., \$5.50; 4-5 ft., \$7.00; 5-6 ft., 9.50; 6-7 ft., \$12.00.

INSIST ON COLORADO GROWN STOCK

Colorado Blue Spruce

PICEA—SPRUCE

Tall evergreen trees of pyramidal habit and continuous trunk.

Picea pungens var. glauca; Colorado Blue Spruce (to 60 ft.) This tree is undoubtedly the most popular of the ornamental conifers throughout the country. This tree is referred to as "The Glory of the Conifers." Select "blues" at the following prices: 3-3½ ft., \$9.00; 3½-4 ft., \$10.50; 4-5 ft., \$13.50; 5-6 ft., \$17.50.

Montana Mugho Pine

P. engelmanni; Engelmann Spruce (to 90 ft.) Somewhat similar to Colorado Spruce. Dense growth and blueish. 4-5 ft., \$10.00; 5-6 ft., \$14.00.

PINUS—PINE

Large evergreen trees, furnishing valuable timber and ornamental trees, a few dwarf and compact forms.

Pinus edulis; Pinon Pine (to 15 ft.) A very hardy species of pine. Will grow fine in hot, dry conditions. Produces an edible nut, which is delicious. Very dark green short leaves. Slow growing. 3-4 ft., \$7.00.

P. montana var compacta; Dwarf Mugho Pine (to 5 ft.) A dense globose form. Should be kept trimmed. Very good for specimen. 15-18 in., \$3.00; 18-24 in., \$4.25.

Compacta Mugho Pine

P. nigra; Austrian Pine (to 50 ft.) Resembles the Western Yellow Pine. Deep, rich green color. Growth close and compact. Long needles. 2-3 ft., \$4.00; 3-4 ft., \$6.00.

Austrian Pine

P. strobus; Eastern White Pine (to 100 ft.) Fast-growing upright form. Very soft needles, with a blueish cast. Very smooth bark while young. 3-4 ft., \$5.50; 4-5 ft., \$7.50.

PERENNIALS

Hardy Perennial and Rock Garden Plants
Prepaid at prices quoted**STRONG FIELD-GROWN PLANTS****(R. G. Indicates Rock Garden Plants)**

No flower garden is complete without a collection of these most valuable plants. With a little care they may be selected so as to give a continuous supply of flowers from early spring to autumn frosts. They require far less care than the annuals or bedding plants, and may be used to good advantage to fill odd corners, along fences, and to screen unsightly objects. They are perfectly hardy, and yet for winter they should have a slight covering of leaves or other litter. Care should also be taken to prevent pools of water standing on them during winter.

Achillea millefolium roseum; Rosy Milfoil (R. G.) (to 18 in.) Head of soft rose flowers, finely cut foliage. June-August. 25c each; \$2.50 per dozen.

Althea rosea; Hollyhocks (4 to 6 ft.) Double flowered, strong field roots. As a background in large borders or beds of the lower herbaceous plants, there is nothing better. Separate colors—Red, Pink, Yellow, White, Buff, Black, Lilac, Maroon. 20c each; \$2.00 per dozen.

Allium schoenoprasum; Chive (R. G.) (1 ft.) Leaves cylindrical and hollow; flowers rose-purple in many flowered umbels. Leaves used in salads, etc. 25c each; \$2.50 per dozen.

Alyssum saxatile compactum; Rock Madwort (R. G.) (10 in.) Sometimes called a "Basket of Gold." Low sprawling habit of growth, producing masses of bright yellow flowers in May. 35c each; \$3.50 per dozen.

Anchusa myosotidiflora; Siberian Bugloss (1 ft.) Clusters of charming blue flowers resembling Forget-Me-Nots. An effective rock plant for shady places. May. 35c each; \$3.50 per doz.

Aquilegia coerulea; Rocky Mountain Blue Columbine (R. G.) (2 ft.) Large blue flowers with long spurs, center creamy white. Best of the Columbines. 25c each; \$2.50 per dozen.

Artemesia abrotanum; Old Man (to 5 ft.) Sometimes called "Southernwood." Almost shrubby, has silvery-white, silky foliage. 25c each; \$2.50 per dozen.

Asclepias tuberosa; Butterfly Weed (R. G.) (18 in.) Bright orange flowers, seed pods very decorative. July-August. 25c each; \$2.50 per dozen.

Asters, Hardy; Michaelmas Daisies (3 to 4 ft.) Late-blooming, very showy. We offer four colors only—Blue, Blush, Lavender and Pink. 20c each; \$2.00 per dozen.

Campanula medium; Canterbury Bells. (2 ft.) Pendant bell-shaped blossoms, in colors of Pink, Blue and White, mixed. 20c each; \$2.00 per dozen.

Centranthus ruber; Red Valerian (3 ft.) Glaucous perennial. Flowers crimson or pale red, fragrant. 25c each; \$2.50 per dozen.

Cerastium tomentosum; Snow in Summer (R. G.) (3 in.) Silvery-white foliage, white flowers. May. 25c each; \$2.50 per dozen.

Chrysanthemum maximum; Alaska Daisy (2 ft.) Immense snow-white flow-

ers, 4 in. in diameter. Blooms through the season. One of the best daisies grown. 25c each; \$2.50 per dozen.

Chrysanthemum, Hardy Garden. Late bloomers. September and October. Five colors—Red, White, Pink, Yellow and Bronze. 25c each; \$2.50 per dozen.

Convallaria majalis; Lily-of-the-Valley. Just the thing to put into that cold, shaded strip along the walk on the east or north side of the house. The loose panicles of tiny bell-flowers set low in their emerald foliage, are not conspicuous; but they do cover the waste ground, furnish a vast amount of cut sprays and sweetly perfume the entire yard. A good rockery subject. 10c each; 75c per dozen.

Coreopsis lanceolata grandiflora (2 ft.) Large yellow daisy-like flowers. June and July. 20c each; \$2.50 per dozen.

DELPHINIUM—LARKSPUR

Belladonna, "The Heavenly Blue" Delphinium. Flowers on long spikes, sky-blue and good for cutting. 25c each; \$2.50 per dozen.

Bellamosa. Very similar to the above, only of a dark blue color. 25c each; \$2.50 per dozen.

Gold Medal Hybrids. Extraordinary long spikes and choice range of colors through the blues to the red and orchids. Very beautiful. 35c each; \$3.50 per dozen.

Dianthus barbatus; Old Fashioned Sweet William (R. G.) (15 in.) An old favorite, which needs no description. Mixed colors. 20c each; \$2.00 per dozen.

D. carophyllus; Clove Pinks (R. G.) (12 in.) This is the only carnation pink we can truly recommend as being hardy. Delightfully fragrant. Mixed colors. 20c each; \$2.00 per dozen.

D. latifolius atrococcineus, Fl. Pl. (R. G.) (18 in.) Everblooming Japanese Sweet William. Fiery crimson. All summer. 25c each; \$2.50 per dozen.

Dicentra spectabilis; Bleeding Heart (18 in.) Graceful sprays of heart-shaped pink and white flowers. 50c each; \$5.00 per dozen.

Dictanus alba var. rubra; Purple Burningbush (to 3 ft.) Pink flowers in long terminal racemes. Very fragrant and lasting. 35c each; \$3.50 per dozen.

Dryopteris Felix-mas; Colorado Male Fern (R. G.) Grows in partly shaded situations. The large fronds form a vase-like cluster about the crown and are of durable texture and nearly evergreen. It retains, therefore, its splendid appearance throughout the season. 50c each; \$5.00 per dozen.

Euphorbia myrsinites; Spurge (R. G.) A pretty prostrate species with bluish foliage. One of the earliest things to bloom. Bright yellow crowded heads. 25c each; \$2.50 per dozen.

Festuca ovina glauca; Blue Fescue (6 in.) A very compact silvery grass that grows but 6 inches high. Makes a highly desirable border for the flower bed. 25c each; \$2.50 per dozen.

Gaillardia grandiflora; Blanket Flower (2 ft.) Blooms all summer. Flowers deep red with yellow border. 20c each; \$2.00 per dozen.

Gypsophila paniculata; Baby's Breath (2 ft.) A beautiful perennial. Blooms in a spherical mass of minute, pure-white flowers. 25c each; \$2.50 per doz.

Gypsophila Fl. Pl.; Double Baby's Breath (3 ft.) A double form of the above. Blooms two weeks later. Much finer than the single form. 50c each; \$5.00 per dozen.

Helianthemum mutabile; Rock or Sun Rose (R. G.) (12 in.) Mixed, varying in color from yellow and white to rose and purple. June and July. 25c each; \$2.50 per dozen.

Hemerocallis flava; Lemon Lily (2½ ft.) A most useful variety, growing about 2 feet high, with clusters of lily-like flowers of a rich lemon-yellow. Fragrant. 25c each; \$2.50 per dozen.

Hesperis matronalis; Sweet Rocket or Dame's Violet (2 to 3 ft.) Fragrant purple flowers in showy spikes. Grows anywhere. Blooms June-July. 25c each; \$2.50 per dozen.

Hibiscus; Rose Mallow (5 ft.) Very large, single blossoms. Colors—Red, Pink and White, mixed. 25c each; \$2.50 per dozen.

IRIS

Late introductions of special merit. 25c each; \$2.50 per dozen.

Ambassadeur. Bronze and violet.

Anna Farr. Pale blue.

Bruno. Large. Deep, rich purple, shaded bronze.

Dream. Lilac and violet.

Lord of June. Lavender blue.

Lent Williamson. Violet.

Mother of Pearl. Pearl.

Mme. Gaudichau. Purple.

Oriflamme. Dark lavender.

Pallida Dalmatica. Lavender.

Siberica. Dark blue.

Yellow. Old favorite.

Iris pumila. A dwarf edging Iris. Blooms very early. Dark navy blue. 25c each; \$2.50 per dozen.

Lilium tigrinum var. flore-pleno; Tiger Lily (6 ft.) A double form of this old garden favorite. 25c each; \$2.50 per dozen.

Regal Lily. Flower stems are slender and flexible but tense as steel and from 2 to 4 feet tall, covered with dense narrow foliage, and crowned with a profusion of funnel-shaped blooms, the outside of which are streaked brown and shading off to pink. The inside is flushed yellow in center, shading off to pure white at the outer edge. Sweet scented. 40c each; \$4.00 per dozen.

Limonium latifolium; Sea Lavender or Statice (18 in.) All these plants have broad, leathery leaves. Bloom in globular heads. Flowers lavender, and if cut in full bloom will make valuable winter bouquets. 35c each; \$3.50 per dozen.

Linum perenne; Blue Hardy Flax (18 in.) Blooms almost all summer. Blue flowers in the morning. July-August. 25c each; \$2.50 per dozen.

Lupinus; Lupine (3 ft.) Flowers borne on long spikes, pea shaped. Must be planted where there is plenty of moisture. June-July. In separate colors—Blue, Pink and White. 25c each; \$2.50 per dozen.

Myosotis alpestris; Forget-Me-Not (R. G.) (8 in.) An exceptional ground cover. Familiar plant, producing quantities of blue blossoms in the spring. 25c each; \$2.50 per dozen.

Papaver nudicaule; Iceland Poppy (4 ft.) Beautiful fern-like foliage. Produces charming cup-shaped flowers. In colors of white, yellow, orange, red, mixed. 25c each; \$2.50 per dozen.

Papaver orientale; Oriental Poppy (4 ft.) This poppy is perfectly hardy. Its large, orange-scarlet flowers make it one of the most showy of all plants. 25c each; \$2.50 per dozen.

Phlox, Hardy (2 to 4 ft.) We can furnish the following colors in this most popular well-known perennial: White—white with pink eye; Pink; Salmon-pink; Rose-pink; Pink, with red eye; Lavender; scarlet; Red, and Reddish-purple. 30c each; \$3.00 per dozen.

Phlox subulata; Ground or Moss Phlox (R. G.) (4 in.) A dwarf, creeping form of Phlox. Splendid rock garden plant. Equally good for border and ground cover work. A mass of blooms in April-May. In var. rosea only, pink. 35c each; \$3.50 per dozen.

Platycodon grandiflorum; Balloon Flower (2½ ft.) Differing from Campanula chiefly in the opening of the caps. Flowers deep blue, open bell-shaped, to 2 inches across. solitary. June-July. 25c each; \$2.50 per dozen.

Pyrethrum; Painted Daisy (18 in.) **Kelwai**, a brilliant red form of Pyrethrum, very fine. Fern-like foliage. Daisy-like flowers. Blooms in May-June. 25c each; \$2.50 per dozen.

Ranunculus acris var. flore-pleno; Tall Buttercup (to 2 ft.) Very pretty golden-yellow, double flowers. 25c each; \$2.50 per dozen.

Salvia azurea; Meadow Sage (5 ft.) A strong grower, producing a profusion of sky-blue flowers during August-September. 25c each; \$2.50 per dozen.

Santolina incana; Lavender Cotton (1 ft.) A dwarf evergreen perennial with sweet-smelling grey leaves. Can be trimmed to shape. Good edging plant. Very attractive silvery foliage. 25c each; \$2.50 per dozen.

Scabiosa caucasica; Pin Cushion Flower (18 in.) Sometimes called "Blue Bonnet." Soft shade of lavender. June-September. 25c each; \$2.50 per dozen.

Sedum hispanicum var. minus; Stonecrop—Live-Forever (R. G.) (2 in.) Perennial with glaucous-blue foliage, yellow flowers. Very dwarf form. 25c each; \$2.50 per dozen.

Sedum spurium var. coccineum; Two-Row Sedum (to 6 in.) Creeping perennial, forming mats, nearly evergreen, leaves turning reddish in winter. 25c each; \$2.50 per dozen.

Solidago; Golden Rod (4 to 5 ft.) A vigorous, strong-growing, graceful plant, producing golden yellow blooms in September. 25c each; \$2.50 per dozen.

Tritoma pfitzeriana; Red-Hot Poker (2 ft.) Grass-like foliage. Flowers in tall, dense spikes of brilliant red; slender trumpet-like flowers. 50c each; \$5.00 per dozen.

Vinca minor; Running Myrtle. Trailing evergreen. Flowers lilac-blue. Good ground cover. Sometimes called "Periwinkle." 25c each; \$2.50 per dozen.

Yucca filamentosa; Adam's Needle (to 3 ft.) Nearly stemless leaves to 2½ feet long and 1 inch wide. Flowers nearly white, to 2 inches long. This plant with its broad sword-like evergreen foliage is indispensable in landscape work. Good for rock work. 25c each; \$2.50 per dozen.

LANDSCAPE SERVICE

We have in our employ, competent men, well posted, and experienced in designing and landscaping of the modern homes. These men are available at all times, to give suggestions, or help you in many ways. Estimates cheerfully given, whether on a shrub or tree; or for a complete planting. Call us on the phone Gallup 4333, and our representative will get in touch with you.

COURTESY

We strive at all times to give service to our customers; we instruct every one in our employ, to be efficient and courteous. We will greatly appreciate, being informed of any act to the contrary.

VISIT OUR NURSERY

Many things of interest will be found, in a trip thru our Nursery. Especially is this true, in the summer time, when you will see many thousands of Dahlias, Gladioli, and Hardy Perennials blooming on every side; a riot of color, as well as interesting to all flower lovers. Evergreens, Shrubs and Trees, are always at their best in June. Peonies in early June, Dahlias and Gladioli in late August, Hardy Perennials from late May to fall frosts. An ideal time to make your selections, for planting around your home, is while the above mentioned are in bloom; so often catalogue descriptions vary in one's mind, from the reality. Visitors are always welcome at "WILMORES".

OUR GUARANTEE

We deliver the best stock obtainable, to all our customers. What stock we do not grow ourselves, is purchased from reliable sources, and the very best quality possible is procured. Price is secondary,—quality comes first. Except where noted all stock purchased from us is guaranteed to grow,—said guarantee covering the first growing season, following the planting, only. We assume no responsibility for winter kill of any kind, on stock planted the previous spring; but will be responsible for fall planted stock that fails to survive thru the next spring's growth. Our guarantee however, is only good where reasonable care is given to the stock by the purchaser, and where we do the planting. We will replace at half-price, on stock planted by the customer. Feel free to call or write us regarding any information wanted as to watering, cultivation, mulching for winter protection, etc., when in doubt on any matter. Thousands of plants, trees and shrubs are lost annually, that could easily have been saved, by a little advice from responsible parties. We have a reputation to maintain, and will deal fairly with you.

INSECT PESTS COMMON TO EVERGREENS

The two most common insects that infest the Juniper and Spruce family, are red spider and aphid, or aphids as they are also known. Red Spider is detected readily by the foliage turning to a yellowish green, and later to a brown, dead needles when the infestation gets real bad; usually starting near the ground on upright growing trees, but appearing most any place on the prostrate or low growing types. Treatment: A dusting of lime-sulphur to the infected area, or by spraying with two tablespoons full of carpenter's liquid glue, to a gallon of water mixed warm. Aphid are readily seen in colonies upon close examination, usually on the underneath side of the branches, or on the main stem near the top of the tree. Where ants are noticed working around the branches of Evergreens, it is generally a sign of aphid being there. Easily controlled by spraying with black-leaf-40, a tablespoon full to a gallon of water.

CHANGE YOUR SOIL

It is advisable to change the location of the dahlia bed every two or three years. Most all plants are improved by change of soil and the dahlia is no exception. Flowers will be larger and better and the root development decidedly better. In many yards this change would seem to be impractical, as but one location has been left for the dahlia row and to make a change would necessitate the removal of other plants where this obstacle would be in the way and no new location is available. Soil may be removed from one portion of the yard in exchange for soil from the dahlia bed. Dig a trench eight inches deep and two feet wide and exchange soil for soil in some other portion of the yard or bring in new soil from some other source. This at first glance would look like considerable of an undertaking, but a man or lad can move a lot of soil in a few hours. In this way the soil may be renewed indefinitely to the mutual advantage of whatever plants are grown. When this cannot be done a little air slacked lime every two or three years may be used, but the lime must be used in moderation.

COLORADO GROWN STOCK**

**Look for this Trade Mark
when looking for quality.**

Dear Mr. Wilmore:

In closing up my garden work for the current season I take pleasure in advising you that every one of the dahlia tubers which I ordered from you last spring came through in perfect condition, and I want to compliment you on the high quality of stock and good service which you gave me.

Very truly yours,

W. P. STRANDBORG.

Dear Sir:

I am just writing you to tell you of the results secured from the dahlia bulbs which I purchased from you last spring. I can say that while I have secured bulbs from many different places from the different growers of dahlias I have never had any which so thoroughly came up to all one was led to expect from the catalog description of them as the tubers which I bought from you.

LEO WALZ.

How to Grow and Care for Dahlias

IF POSSIBLE, plant in an open, sunny situation. Prepare the soil thoroughly by deep digging. Be moderate in the use of both manure and water. Never plant when the soil is wet. Lay the tuber flat on its side and cover it four inches deep, pressing the soil firmly on the tuber. Keep the soil loose and mellow by frequent hoeing, drawing the soil to a slight hillock around the plant.

Tall growing varieties may be kept fairly dwarf by pinching out the tip when the first shoot is six inches high. All varieties growing above four feet should be tied to stout stakes to hold them in position.

3x3 feet is about the proper distance to plant apart.

Keep all dead flowers trimmed off.

Dahlia blooms keep much better if cut in the evening—about sunset—and the less foliage taken off with the flowers, the better for both plant and flower. If green is desired, use some other green of better keeping qualities.

After frost has killed the tops, dig the tubers carefully, remove the soil from the roots, and store away in a box or barrel secure from frost. As a precaution it would be well to cover the tubers so stored with sand, leaves or moss.

All clumps should be divided into several pieces before being reset the following spring.

Why Dealers Do Not Guarantee Plants

THIS question is often asked, and yet it is a very easy one answered and the reasonableness of the answer is clearly apparent to all. To guarantee the life of plant in the hands of another person is to make the dealer responsible for the errors and inexperience of others, not to mention freaks of weather and unfavorable seasons, cut worms, insects, bad soil, unfavorable locations and many other conditions, over which the dealer has no control. Then, again, there are customers who buy plants so late in the season that there can be but little hope of success. Most dealers are ready and willing to make good plants that are dead upon arrival, but it would be unreasonable to ask them to become responsible for the future life or conduct of a plant received in good condition. Fortunately the percentage of loss in hardy plants is small, as they are very tenacious of life.

W. W. WILMORE DAHLIA FARM.

Colorado Grown Nursery Stock

OLORADO grown nursery stock has demonstrated over and over again its superior merit and adaptability to severe and trying locations and situations.

There are several reasons for this, among which are altitude and therefore slower development, which produces a harder wood fibre. Trees and shrubs in high altitudes ripen and shed their foliage much earlier than in lower altitudes and warmer climates, thus enabling them to enter the winter period in better condition to withstand its rigor. Another important factor is that our climate is practically rainless during the growing season. An irrigation system supplying the water needs, develops a wonderful root action, rendering the transplanting far less hazardous. Nearly all the trees and shrubs listed in this catalog have been grown on the premises and are well ripened and thrifty. The exceptions are Roses and Fruits. These are procured from growers in lower but northern latitudes for the reason that limited growing acreage renders their growing impractical.

Perhaps a word of warning is not out of place. Trees and shrubs should be purchased only from nurseries which have been inspected and certified by proper authorities as being free from injurious insect pests and diseases—or from persons who procure their stock from inspected nurseries. Otherwise the purchaser may be buying infested or infected stock, which may later have to be destroyed.
